

TOTAL SLIDING SYSTEM

SYSTEM LINE

GB SYSTEM LINE

The extraction kit includes:

- Aluminium extraction rail (135x220), length = 9, 12 or 15 mt. (mod. BLIND 190) with sliding trolley
- Flexible hose (Ø 75 mm - length 5 mt.)
- Rubber nozzle with gripper
- Sparkproof cast aluminium electric exhauster high pressure (ASP 0.75 - HP 0,75).
- Alluflex hose to joint the line and the exhauster.

Available in the following versions:

- Manual, after the nozzle is manually uncoupled the sliding trolley has to be accompanied to its parking place.
- Automatic uncoupling of the nozzle supplied with safety quick coupling system - electric recovery of the trolley (optional).

Track brackets are not included, the chimney Ø 120 mm and the jointing line are to be studied on the spot.
For further information, please apply to our technical office.

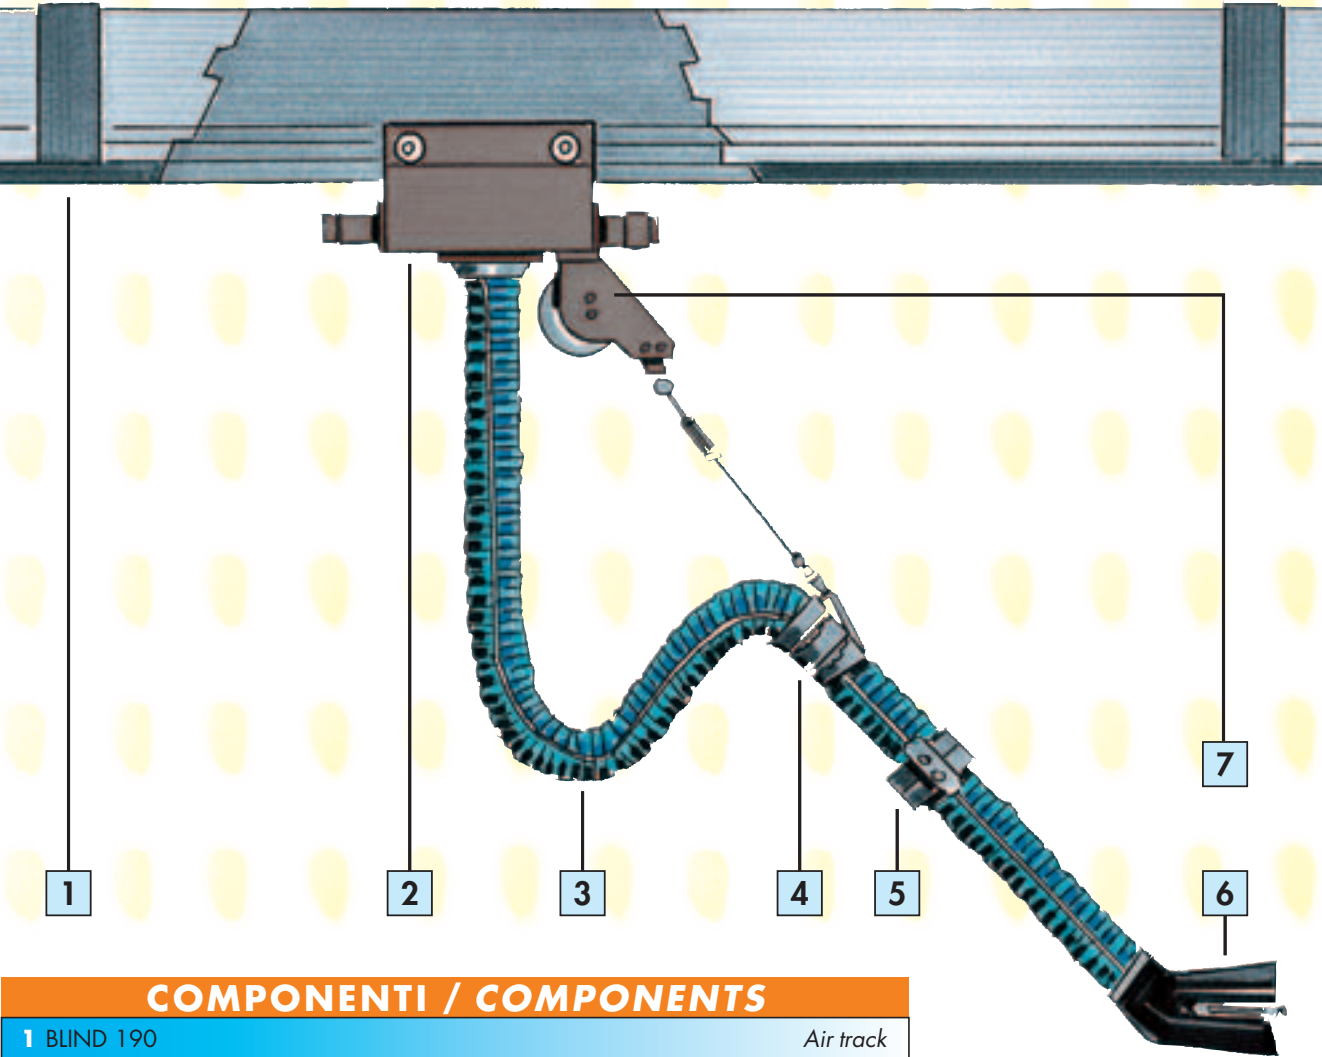

SYSTEM LINE VP

GB SYSTEM LINE FOR HEAVY VEHICLES.
Complete heavy vehicles overhauling sliding kit furnished with 2 HP electric exhauster, sliding carriage with 7,5 -mt- long Ø 150 hose, equalizer with counter-release and oval rubber nozzle for twin exhaust-pipes with manual locking gripper. Wall and ceiling fastening hangers and Ø 200 outlet hose are excluded.
Manual version: manual nozzle uncoupling and manual trolley recovery.

Automatic version on request. Please apply to our sales office for further information.

COMPONENTI / COMPONENTS	
1 BLIND 190	Air track
2 CAT 75	Sliding carriage
3 T-GAS 75/5	Flexible hose
4 AN 75	Coupling for hose suspension
5 JOINT 75 (Optional)	Quick hose coupling
6 BNA 75 P	Oval rubber nozzle
7 BIL	Equalizer

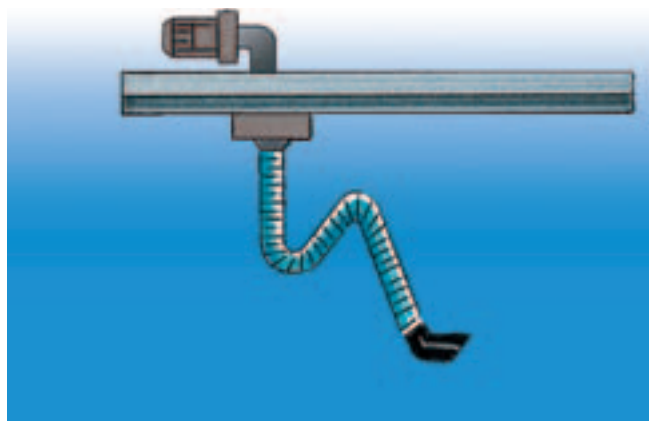

TTS AIR KIT 1

Practical, easy and quick to install. The TTS AIR KIT 1 is the ideal solution for exhaust gas extraction near the car without the need for a fixed position or bulky additional hoses.

Complete with : "LAM" series spark-proof 1,5 HP electric exhauster in steel sheet, new extruded aluminium track "ETB", 1 sliding carriage complete of 360° rotating flange in order to avoid hose twisting, 1 flexible hose mod. "T-GAS", 1 rubber nozzle, coupling for hose suspension with nylon cable and 1 "ALLUFLEX" seamed aluminium flexible hose for conveying air to the exhauster
